DETAILED ACTION

Response to Amendment

1. This office action is responsive to the amendment filed on October 1, 2010. As directed by the amendment: claims 34, 40, 42, and 44 have been amended, claims 1-33 have been cancelled, and no new claims have been added. Thus, claims 34-51 are presently pending in this application, claims 46-51 being withdrawn from consideration.

112 6th Acknowledgement

2. With regard to Applicant's "means for connecting a tube thereto" of claim 27, the language appears to be an attempt to invoke 35 USC 112, 6th paragraph interpretation of the claims. A claim limitation will be interpreted to invoke 35 U.S.C. 112, sixth paragraph, if it meets the following 3-prong analysis:

- (A) the claim limitations must use the phrase "means for" or "step for;"
- (B) the "means for" or "step for" must be modified by functional language;
and
- (C) the phrase "means for" or "step for" must not be modified by sufficient structure, material or acts for achieving the specified function.

3. In the instant case, applicant appears to have met the limitations set forth in MPEP § 2181, and examiner has turned to the specification for clarification.

4. In the specification, applicant defines the "means for connecting a tube thereto" as a barb or connection fitting. Accordingly, the examiner is interpreting the "means for connecting" to encompass barb tubing connectors and its equivalents. Equivalent structures may include those that perform the function specified in the claim, structures

that are not excluded by any specific definition provided in the specification for an equivalent, or is a structural equivalent of the corresponding element disclosed in the specification. See MPEP 2183.

Examiner's Amendment

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Scott Born on December 13, 2010.

The application has been amended as follows:

Claims 46-51 are cancelled.

Allowable Subject Matter

6. Claims 34-45 are allowed over the prior art of record.
